

IMC LIFE SCIENCES DIVISION

Our Life Sciences Division provide staffing solutions to industries including

Biomedical Sciences

Research and Development

Clinical Trials

Pharmaceuticals

Project Management

Biotechnology

Regulatory Affairs

Quality Assurance

Bioinformatics

Pharmacovigilance

Our team of consultants have over 15 years' experience recruiting in the Scientific & Life Sciences sector. We have extensive methods of resourcing candidates for your company, using our expert knowledge & innovative marketing strategies to find the right, fully vetted candidates, with the skills, experience, qualifications & personality to match your requirements.

Our recruitment services include:

Interim/Contract

Permanent

Executive

Together with the above recruitment solutions, where our clients have a need to fill a contracted position, we can offer a bespoke recruitment service. As well as our UK recruitment, our unique & unparalleled service allows us to source, recruit & directly sponsor overseas candidates using our worldwide network. This gives us a wider scope recruitment strategy & the solution to assist with the most specialist & niche roles.

Successful networks include:

- Philippines
- India
- South Africa
- Australia
- New Zealand
- Portugal

At IMC, we are confident that we have a unique solution to offer you, to support your recruitment needs.
